Importance: High

Cathy,

I can see from emails below that Carl already has communicated about the due date for the comments on the ROD (August 11) - so please ignore my email from last week.

I am assuming that Carl and Martha also have worked out a due date for comments on the FFS.

Thanks,
Mary

Importance: High

Good afternoon Martha,

Attached is the new EMDF D1 ROD.

Acting SEMD Director Randall Chaffins wishes us to expedite our review of this D1 ROD. I need your review comments in 30-days or less (please). **The response date is Wednesday, August 11, 2021.**

Please focus your comments on the ROD text and ARARs table looking for places where specific additional info is needed. CERCLA is NOT about building landfills; however, for mega-sites they are being constructed and used. We need to ensure that what is proposed will be protective and can be properly managed and maintained over many decades.

Thank you for your help. Again, **I will need your comments on or before August 11, 2021.**

Carl
